NATIONAL PARKS

Protect Wildlife?

EPISODE #2

DATA IN ACTION

Tracking | Habitats | Species

Theresa Deitche | Senior Data Analyst

02

HERE'S HOW

Park teams analyze:

Wildlife movement

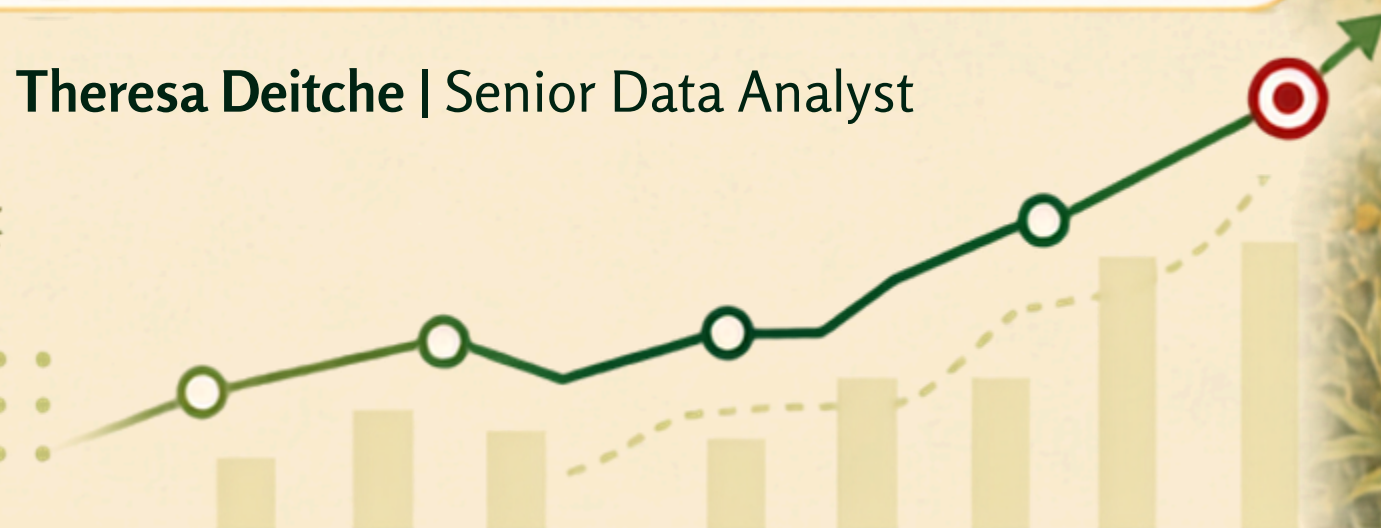

Animal populations

Nesting areas

Theresa Deitche | Senior Data Analyst

The data can reveal:

Habitat Changes

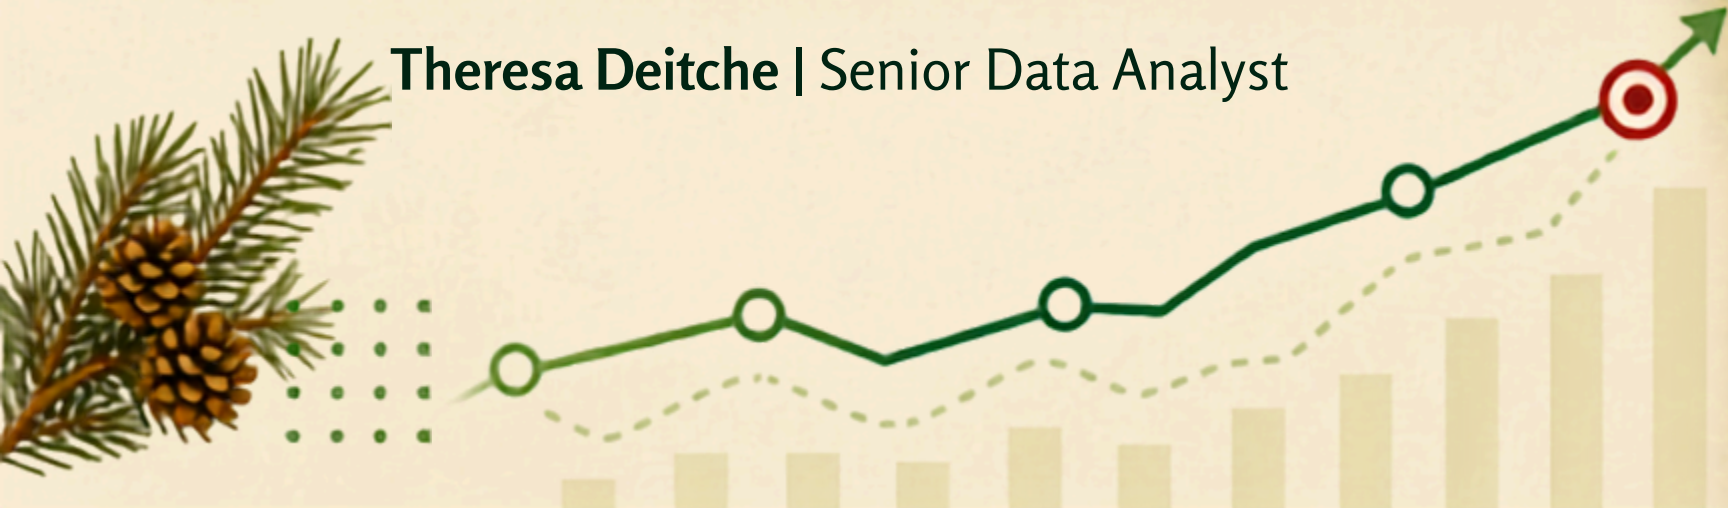

Population trends

Conservation Priorities

Theresa Deitche | Senior Data Analyst

Parks can:

Protect habitats

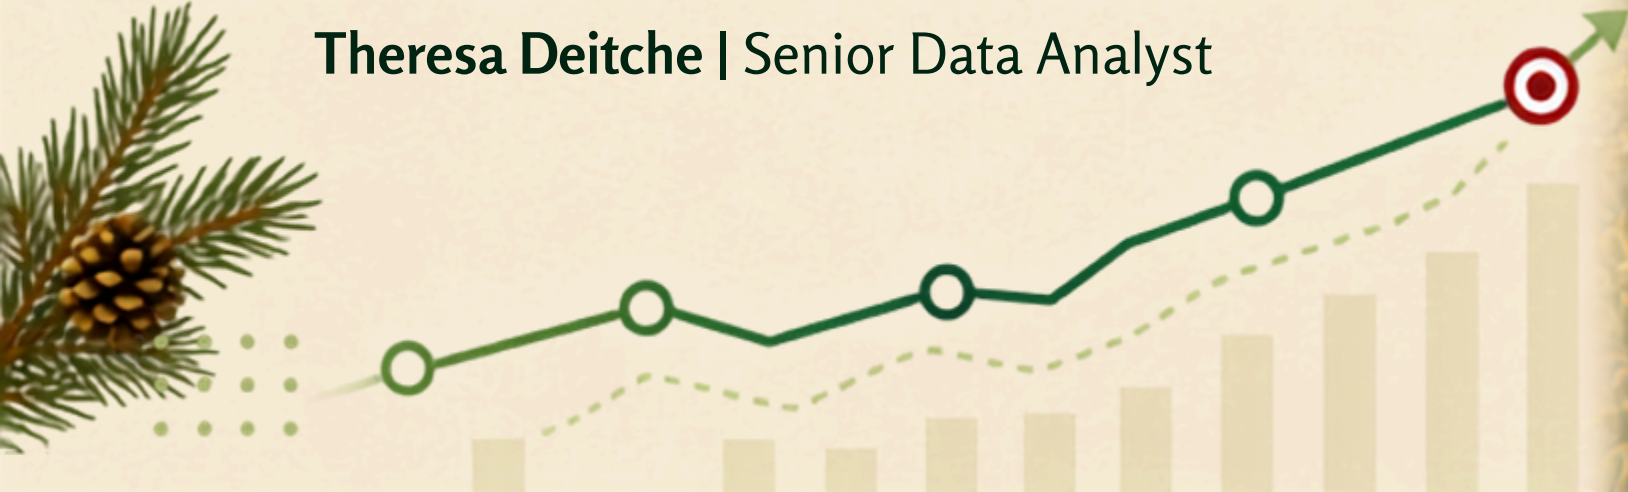

Reduce disturbance

Guide conservation

Theresa Deitche | Senior Data Analyst

05

THE TAKEAWAY

Good data
helps parks
protect wildlife
and preserve
healthy
ecosystems.

Better insights. Better decisions.

06

YOUR TURN

Which animal
do you enjoy
seeing in the
wild, and why?

Birds, deer, bears,
or something else?
