

WHAT CAN
DATA DO?

TDeitche
Analytics

NATIONAL PARKS

Track Wildfire Conditions?

EPIISODE #3

DATA IN ACTION

Weather | Vegetation | Air quality

Theresa Deitche | Senior Data Analyst

02

HERE'S HOW

Park teams analyze:

Weather patterns

Vegetation dryness

Air quality and Smoke

Theresa Deitche | Senior Data Analyst

The data can reveal:

Higher-risk areas

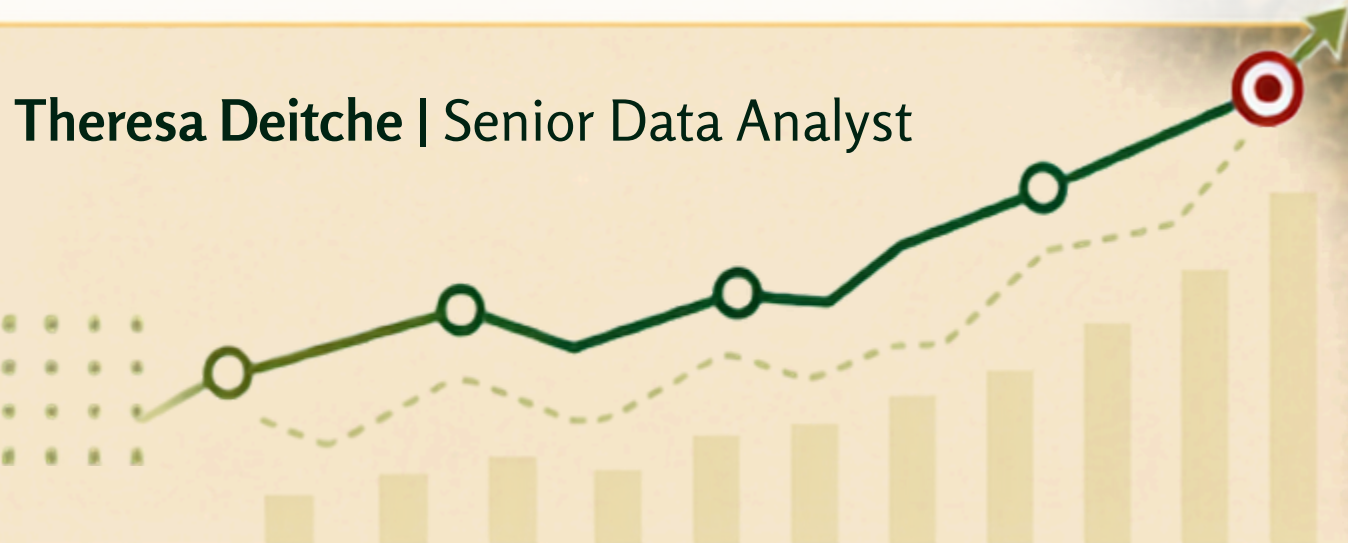

Changing conditions

Smoke impacts

Theresa Deitche | Senior Data Analyst

04

TAKING ACTION

Park teams can:

Issue visitor alerts

Prioritize resources

Adjust access or closures

Theresa Deitche | Senior Data Analyst

05

THE TAKEAWAY

Good data helps
park teams
Prepare for
wildfire risk
and respond
more safely.

Better insights. Better decisions.

06 YOUR TURN

When poor air
quality keeps
you indoors,
what do you
enjoy doing?

Reading, movies, crafts,
or something else?
